

THE SUNDARA[®] HANDWASHING SYSTEM

Seamless, Strong, and Stylishly Sophisticated

Sundara Tide in White with Cumberland Series® Faucet and Soap Dispenser

Shown with VERDEdri Hand Dryer from World Dryer by Zurn Elkay

DEDICATION IN DESIGN

Inspired by architects and brought to life through the ingenuity of industrial designers, Sundara®—meaning *beautiful* in Sanskrit—offers a bold yet simplified approach to handwashing.

After interviewing more than 150 architects... We paired seamless countertops, basins, faucets, soap dispensers, shrouds and carriers for an innovative design approach that elevates the restroom experience with sophisticated style.

A Single Source for Every Sundara

We design and manufacture all Zurn products to work together, seamlessly. From elegant countertops flowing into ergonomic basins, to curated faucets with matching soap dispensers, each Sundara component is engineered to fit perfectly, **reducing installation time**, increasing durability and **lowering the total cost** of ownership. With Sundara, you get the peace of mind that comes with high-quality components from a single-source manufacturer.

PROVEN DURABILITY

Zurn's Z1240-EZR carrier is the unseen hero of the handwashing system, providing strength and stability that add to the beauty and longevity of your restroom design. Our carriers are built to last, providing unmatched durability and proven performance, reducing liability.

PROVEN VERSATILITY

Sundara's wall mount installation and vandal-resistant, stainless-steel shrouds can adapt to almost any application, from new construction or retrofit. The simple install process saves time and costs, while ensuring consistent performance.

From the Voices of Visionaries

Restrooms should never compromise performance for aesthetics or vice versa.

Sundara is the culmination of more than 10,000 research hours, 150 architect interviews and 26 trial prototypes. We asked questions, gained insights and put everything we learned to work in the most user-friendly, design-forward handwashing product on the market today.

Sundara systems are different because they bring a harmonized, clean look to the commercial restroom. These unique lavatory platforms will open architects' minds to new design possibilities."

REIMAGINE THE RESTROOM

We make sure that products that go together, work together. We've spent thousands of hours designing, engineering and testing our products to deliver optimal results. Sundara's low-profile basins and suggested paired faucets offer splash-free performance, helping to keep the restroom clean, more hygienic and looking great.

Bring your vision to life with basin and faucet combinations that fit your specific space in an environment that is often overlooked. Its modern lines, minimalist drains, fashionable faucets, sophisticated soap dispensers and refined ergonomic features deliver attractive—yet functional—design statements.

Sundara Reef in Seashell
with Camaya Series Faucet
and Soap Dispenser

Sundara Reef

Sundara Reef offers a timeless design for commercial restrooms with a wide opening, gently sweeping basin, low-profile slot drain and a broad rear deck for placing personal items.

Style...
Reef's large basin provides sleek styling for handwashing, providing users with a more hygienic and elegant restroom experience.

And Space
Our multi-basin units combine seamless designs with individual basin configurations. This gives users the space they want while maintaining a timeless, clean aesthetic.

Pairs well with Camaya, Fulmer and Serio Series faucets and soap dispensers.

Sundara Surf in Sandstorm with Camaya Series Faucet and Soap Dispenser

Sundara Surf

Bold, yet effortless, Surf takes on restroom design with sloping lines and a wide basin. This collection gives users personal space and offers harmonious lines that complement any restroom design.

Know Function...

The angled sloping basin provides a modern, user friendly appeal for a positive user experience.

And Space

Our multi-basin units combine seamless designs with individual basin configurations. This gives users the space they want while maintaining a timeless, clean aesthetic.

Pairs well with Camaya and Serio Series faucets and soap dispensers.

Sundara Inlet in White
with Fulmer Series® Faucet
and Soap Dispenser

Sundara Inlet

Sundara Inlet connects industrial style with stylish substance. Water stays contained within the deep-set basin for a pleasant user experience and easy maintenance.

Unobstructed...

The spacious single configuration and wall-mount design present guests with the gift of more elbow room.

Uncluttered

The multi-basin configuration gives users their personal space, and the deep sweeping lines whisk water into the bowl instead of on the counter.

Pairs well with Camaya and Serio Series faucets and soap dispensers.

Sundara Tide in White
with Cumberland Series Faucet
and Soap Dispenser

Sundara Tide

Sundara Tide presents a modern design with a wide basin and smoothly rounded corners. The soft geometry with this collection is an excellent choice for educational environments.

Minimal...
Tide's expansive basins evoke images of flowing water, while integral overflow and the paired performance of the sink and faucet keep the water contained within the bowl.

Yet Intentional
The multi-basin design takes on a fluid feel while providing guests with generous space in a busy restroom.

Pairs well with Cumberland and Serio Series faucets and soap dispensers.

Sundara Drift in White
with Nachi Series® Faucet
and Soap Dispenser

Sundara Drift

Refining the approach to handwashing, Sundara Drift introduces an organic, minimalist design with a sweeping basin, low-profile slot drain and seamless transition to an integrated backsplash.

Intuitive...

Drift's gently curving, low-profile design is smooth and functional, with integral overflows and a gradually rising backsplash to contain water.

In Motion

Multi-basin configurations flow softly from one basin to the next, evoking a gently rolling wave while still maintaining the personal space that users desire.

Pairs well with Serio Series faucets and soap dispensers.

Sustainable Flow That's Fashionable

Zurn faucets offer superior sustainability by utilizing low flow rates and regenerative power, all with the lowest maintenance and best total cost of ownership on the market. Pair them with a matching soap dispenser to complete the look.

SUSTAINABLE HYDROPOWER

Hydro•X Power® technology option delivers sustainable performance by providing renewable, uninterrupted hydropower designed to last the life of a commercial restroom. No more battery waste.

RELIABLE, TOUCHLESS EXPERIENCE

Intuitive and effortless, sensor faucets offer guests no-delay, sensor activation, creating a more hygienic restroom. Our technology features customizable programming and line purge for the best in health, safety, and user experience.

SIMPLIFIED INSTALLATION

No special wiring means building owners can save on the upfront costs and contractors can skip the extra steps typically required for high-use applications.

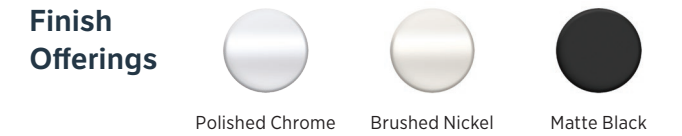

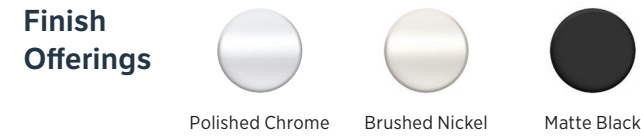

SOLENOID-FREE

A great faucet is one that requires the least amount of maintenance. Zurn faucets featuring EZ Gear technology have a gear-driven ceramic cartridge that is less susceptible to debris and buildup for easy maintenance. It outlasts and outperforms solenoids.

PLUMBPRO™ APP

These faucets come standard with our Bluetooth app for point-of-use wireless programming such as metering, on demand or automatic line flushing, timeout and sensor sensitivity settings.

Sensor Faucets

ZG6953
Camaya Series Sensor Faucet

Z6953-SD
Camaya Series Sensor Soap Dispenser

From clean lines to an even cleaner environment, the Camaya EZ Gear collection makes a minimalist move seem like a grand gesture. With its hygienic hands-free operation, it checks all the boxes for a sophisticated restroom environment.

Pairs well with Reef and Surf solid surface units.

ZG6956
Cumberland Series Sensor Faucet

Z6956-SD
Cumberland Series Sensor Soap Dispenser

The Cumberland EZ Gear collection adds timeless elegance to a simple design. Its smooth curves and seamless body make it easy to clean, enhancing the appeal.

Pairs well with Tide solid surface units.

ZG6950
Serio Series Sensor Faucet

Z6950-SD
Serio Series Sensor Soap Dispenser

Functionality doesn't fall short on elevated style with Serio. Achieve high performance with a contemporary, low-maintenance EZ Gear faucet. The streamlined look complements practically any environment and includes a hidden sensor for superior vandal resistance.

Pairs well with all Zurn solid surface units.

ZG6951
Fulmer Series Sensor Faucet

Z6951-SD
Fulmer Series Sensor Soap Dispenser

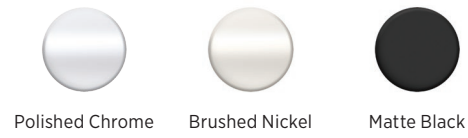

Fulmer delivers seamlessly with a hidden sensor for increased vandal resistance. In addition, this EZ Gear collection's sensor liquid soap dispenser fills from the top for convenient maintenance.

Pairs well with Reef and Inlet solid surface units.

Sundara Drift in White with Nachi Series Faucet and Soap Dispenser

When we were first introduced to the Sundara handwashing system, we hadn't seen anything like it. We knew we wanted it for our restrooms without even realizing the full capabilities. The simplicity of what you see on the outside coupled with the robust hanger system you don't see are consistent with the quality and reputation of being a Zurn product."
