

Correctional Flush Valve Systems

ZP6800 Piezo Activated Flushometer

855-ONE-ZURN
zurn.com

Features and Benefits

- Reliable one-hour lockout feature for excessive flushing and flood prevention
- Remote flushing capabilities with true mechanical override button
- Up to 50% water savings on 3.5 gpf penal units
- Vandal-resistant stainless steel flush button

Stainless Steel Piezoelectric
Push Button

ZP6800

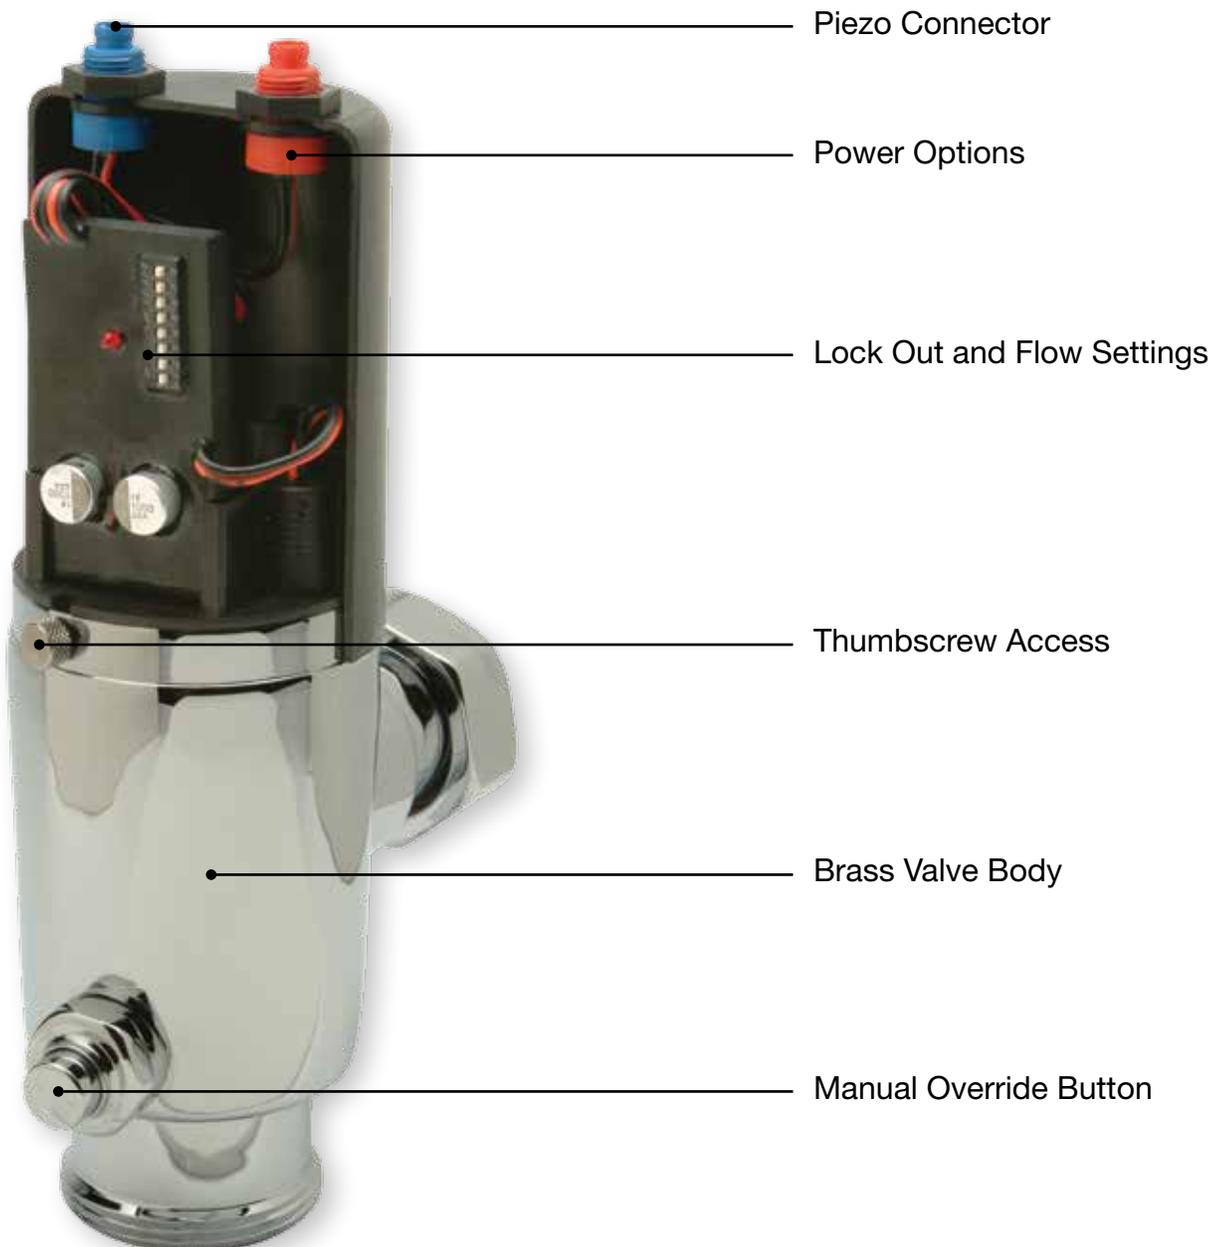

Zurn is redefining how correctional facilities control and use water. Through extensive field testing and input from key industry leaders, we introduce the innovative ZP6800 concealed flush valve. This new design allows complete valve control and the expected durability required for the most demanding correctional environments.

Features and Benefits

- Solid brass construction with piston valve performance
- Proven, field tested design for increased reliability
- Delivers 1.28 gpf and 1.6 gpf on new construction applications
- Hardwire and battery options for easy design and retrofit applications
- IAPMO approved

Engineer

Features and Benefits

- Easy color-coded connections for fast, reliable installation
- Standard rough-in for simplified installation on new construction or retrofit
- No specialty tools, or computer programs required for installation, maintenance, or repair
- Standard piston valve design for easy repair and parts maintenance
