

Standard Product / Custom Designed Systems / Superior Manufacturing Processes

Strong Specification and Proven Performance in Harsh Environments for Over 100 Years

Stainless Steel Drainage

Your customers expect their drain systems to work and keep working. They also want them to look good and keep looking good.

Don't compromise appearance for performance

Our comprehensive product portfolio coupled with our custom design and fabrication capabilities allow you to design a drainage system that meets the performance requirements and the aesthetic vision your customer demands.

Specify Your System

Whether you are designing a new food processing facility, renovating an existing space, or retrofitting an existing drainage system, Zurn is here to help as your single source provider and trusted partner.

Industry Leader of Standardized Product

- Sanitation, durability, safety, and aesthetics at forefront of design
- Versatility in configuration, flow rates, load ratings, strainers, grates, and more
- Readily available through our national sales and distribution network
- Ease of specification, ease of installation

Custom Designed Systems and Fabrication

- We start with your design and manufacture to your specifications
- Let us assist you design a custom system as unique as the environment it serves
- Manufactured in our Dallas, TX facility
- Custom drawings provided by our engineering team with fast turnaround times
- Available in custom lengths up to 50' continuous runs

World Class Manufacturing

- 304 or 316 stainless steel
- 10, 12, or 14 gauge
- Square, round, or V bottom drains
- Laser cut for precision and efficiency
- Robotic welding for consistency and performance
- Metal spinning to reduce bacteria harboring angles, welds, and crevices
- Bead blast finish for a smoother, more uniform look

Z890 6" Wide Pre-Sloped Trench Drainage System and Z1870 Hub Drains

- Low-cost monitoring
- Proper drainage keeps production area safe
- Contain, reroute, and evacuate liquids
- Modular trench systems designed for ease of installation, load-bearing strength, hydraulics, chemical resistance, and structural integrity

Z1840 Industrial Sanitary Cleanouts

Z1850 Industrial Double Containment Drain

Z1800 Industrial Floor Drain and Cleanout

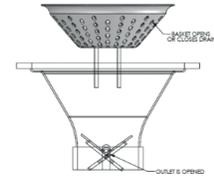

- Industrial floor drain with loose set heavy-duty grate, sediment bucket with lift handle, and stabilizing anchor tabs
- Various sizes and grate configurations
- Angled body for sanitation
- No interior welds

Z891 Slot Drain

Butterfly Check Valve Assembly

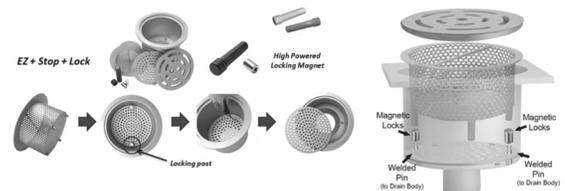

Z1830 Industrial Sanitary Deep Sump Drains and Z1752 Floor Sinks

- Industrial sanitary floor drain with deep body, and heavy-duty slotted grate with finger holes flow rate / high volume
- Anchor tabs that help stabilize during the pre-pour

EZ Stop Lock

The EZ Stop Lock secures drain covers using a unique locking mechanism. The magnetic device and corresponding key work to latch the grate and accessories. It is only removed for scheduled maintenance and cleaning. The drain is protected from being opened by wrenches, crowbars, pliers or any other item, other than the assigned key. No longer will you have to worry about unauthorized access to your vital drainage system.
