

Case Study

Evergreen Shell Warehouse Building

Richmond, Virginia

Z888-18-PSF Applications

Highways

Airports

Pools

Wineries

Parking Lots

Gas Stations

Industrial Parks

Airplane Hangars

- 120 feet of Z888-18-PSF (pre-sloped frame) installed.
- Located in front of a loading dock.
- Linear drain designed for storm water storage.
- 6 inch PVC passed through an earthen dike into a manhole structure.
- Once water exceeds a certain level in the drain/storm sewer, a pump turns on and removes the water.
- Z888-18 preferred over Polydrain product due to ease of installation and lower installed cost.
- Cleanout Port (Z889-18) was added to the downstream connection.
- Material was erected, formed, poured and completed in one day.
- Installed by a concrete contractor.
