

www.zurn.com

Zurn has a 100-year tradition of developing quality engineered products to meet the growing needs of water conservation, water safety, water control and water comfort. Our product offering combines both value and performance to deliver significant savings for the building owner. Zurn paired performance fixture systems provide a complete commercial plumbing product solution.

Zurn Interceptor

Automatic Draw-Off Grease Interceptor

The Zurn Z1199 Grease Interceptor automatically draws grease out of the interceptor during normal operation. No additional action is needed. The simple design does not require any internal cleaning like most interceptors, saving time and money. The removed grease is free of water, making it easy to recycle. Grease removal prevents clogging of pipes and reduces environmental issues at landfills and waterways.
