Wax Ring Replacement Seal

Installs In Less Than 60 Seconds

Flo-Bowl Jr. is a direct replacement of the wax ring seal on the bottom of your toilet. Flo-Bowl Jr. will eliminate forever the possibility of water damage to your bathroom floor and/or to the ceiling below if installed on a toilet in an upstairs bathroom.

Flo-Bowl Jr. is a single piece of PVC plastic with a factory 3- or 4-inch multi-ribbed rubber seal on the lower part of the horn adapter, and a non-hardening, instant adhering, rubber sealant ring on the top portion of the horn adapter (Figure 1). The multi-ribbed seal arrangement provides more than one point of contact on the inside of your waste drain pipe to compensate for irregularities on the inside of the pipe. The adhesive ring is flexible; this allows it to conform to the irregularities on the bottom of the toilet. Flo-Bowl Jr. will adapt to both 3- and 4-inch waste pipes.

The combination of the horn adapter, multi-ribbed seal, and the instant non-hardening adhesive totally eliminate the possibility of water leakage, and subsequent property damage, or the escape of harmful sewer gases that form inside of your waste drain pipe.

Flo-Bowl Jr. Benefits

- Lifetime guarantee
- Made in the U.S.A.
- System guaranteed not to leak
- Easy to install
- Not sensitive to temperature
- Reset toilet as many times as needed
- Works where double stacking of wax rings was necessary
- Flo-Bowl Jr. packaging for 3" [76 mm] or 4" [120 mm] applications

Zurn Flo-Bowl Jr. Lifetime Guarantee

Zurn Flo-Bowl Jr. guarantees its product to be free from manufacturing defects under normal use and service for the life of the product from date of purchase.

Flo-Bowl Jr. Installation Instructions

1. Turn off water at shut-off valve. Flush toilet to remove all water. Unbolt the toilet from the floor and disconnect water line. **Carefully** lift the toilet off the floor and place on its side.
2. Remove all foreign matter from area around toilet horn (waste hole) as well as the floor flange. This includes wax ring, dirt, oil, etc. **Note:** Surface around toilet horn must be clean, dry, and residue free. This will ensure a good bonding.
3. Once toilet horn area has been cleaned, position the Flo-Bowl Jr. over the toilet horn and apply firm pressure to ensure a good bond (**Figure 2**).
4. Now carefully lift toilet (be sure not to bump Flo-Bowl Jr.) and reposition toilet over mounting bolts. Lower toilet so that bolts pass through mounting holes (**Figure 3**). Bolt toilet down and reconnect water line.
