

QTP Plastic Quick Test Fittings

Application

Designed for use on Backflow Prevention Assemblies to facilitate the connection of a Differential Pressure Test Gauge. Quick Test Fittings, with their integral o-ring and hand-tight installation, eliminate the need for wrenches and Teflon tape. This will result in a time and material savings to the tester.

Materials

Body (fittings) Glass Filled Polypropylene
O-rings Buna Nitrile

Features

Sizes: 1/4"

Tear Resistant O-rings
SAE 45° Flare Fittings - SAE J513
Sold in convenient 3-pack
